THE CARRICK HILL DEVELOPMENT FOUNDATION

The Foundation was formed by friends and supporters to gather financial support in order to secure the future development of this precious public property. Necessary conservation and development projects for the buildings, art works, gardens and native vegetation bushland require extra funding. The Foundation is designed and incorporated to enable such an important trust to be properly administered.

The preferred policy of the Foundation is for unrestricted use of the funds to enable flexibility so that the Foundation can apply the monies for purposes not necessarily envisaged at the time of the gift. However, should a donor wish to designate a purpose for the funds, then the Foundation will consider any such request. The Foundation is very much aware that donors may identify with particular aspects of the development of Carrick Hill, and may wish to donate in memory of relatives or friend.
